Intuition and Creativity

With Karen Grace Kassy and Joe Craven

Whether you're wanting to take your creativity and intuition to another level and get out of the box, or just discover whatever beginnings might lie within you, this week-long retreat is your adventure into these realms. Musician/artist/educator Joe Craven, MJ, has played with David Grisman, Jerry Garcia, and others. Joe and author, intuitive, and international-speaker Karen Grace Kassy, have joined creative forces to bring you to places within you that you never knew existed, while you're exploring a place outside of you that you never dreamed of: Sueño Azul Resort in Costa Rica. "Sueño Azul" means "blue dream/day dream" in Spanish, and it is a dream: 1200 acres – 300 old-growth forest – 12 rivers, countless streams, waterfalls, horses, butterfly sanctuary, fresh fruit and gourmet, healthy food. Costa Rica (only a short 5 hours from LA, 3 hours from Miami via plane) dedicates 25% of its land to preserving the earth's biodiversity. Five percent of the world's plant and animal species are found here. Join Joe and Karen as they make intuition and creativity accessible to you during this learning vacation.
